Petition for Arbitration of Sprint Spectrum L.P. d/b/a Sprint PCS

DATE: January 25, 2005

During deliberations in this matter held on January 12, 2005, a majority of the Arbitrators found, as to Issue No. 11,¹ that sufficient evidence did not exist in the record to determine if a factor should be used and what percentage of traffic is interMTA. Therefore, the majority concluded that the CMRS providers should provide to each ICO member six months of data that specifies interMTA traffic originated by the CMRS providers and terminated to each ICO member. This data should be sufficient to provide the parties with the necessary information to determine a factor or, if not, to petition the Arbitrators for assistance.

In an effort to assist the parties in this matter the Arbitrators scheduled a status conference to be held during the **January 31, 2005 Authority Conference at 1:00 pm** in the Hearing Room on the Ground Floor at 460 James Robertson Parkway, Nashville, Tennessee in the event there is a need for the parties to discuss this matter either with the Arbitrators or the Hearing Officer
